Education

Roehampton University

Sept 21 – Jun24 London

- Expected 2nd Class.
- Modules: Computer System (47),Data Base (67), Software Development (59), Practical Experiences.

Kingston University (foundation degree in computer science)

Sept 20 – July 21 London

- 2nd class
- Modules: computing (70) , Pure Math (70)

Border Guard Public School & college

Jun 15 Jun 19, Sylhet

HSC: Math Physic Chemistry and ICT GPA 4.17/5.00

SSC: English Math Physic Chemistry GPA 4.55/5.00

Project

BMI Calculator (personal project)

- Built a BMI calculator where I am using python
- You can count by kg and lbs

Rock paper scissors (personal project)

- In this project I am using python
- It's a simple project where you need to play with computer

CRUD Application (University project)

- Collaborated with a 2 member team to plan, design, and implement a web-based CRUD application using HTML, CSS, JavaScript, Bootstrap, and MySQL
- Conducted requirements gathering and analysis to determine optimal architecture for performance and maintainability [\[Git Repository\]](#)

Image Classification (University project)

- Developed an image classification model using convolutional neural networks (CNN) to categorize images into different classes
- Curated and preprocessed a dataset of images for model training, including resizing, normalization, and augmentation [\[Git Repository\]](#)

Work Experience

July 2021 – Present: KFC team Member

- Ensured that all food was prepared according to company standards and adhered to health regulations
- Prepared fried chicken, mashed potatoes, gravy and coleslaw in a fast-paced environment while maintaining quality control.

Top Skills: Python, Web Development, Machine Learning , HTML CSS

Intermediate: Android Dev, SQL,

Beginner: C/C++
